

2kW PTC Over Door Heater/Fan with Remote Control and Timer

The Over Door PTC Heater/Fan with Remote Control and Timer is ideal for installation in shop doorways and business reception areas; in fact anywhere you want to limit heat loss or temperature fluctuations where an exterior door is frequently in use. With 2 heat settings (1 or 2 kW) and a fan only setting, the Over Door Heater and Fan also features a wide oscillating angle for generous heat distribution and a timer for total control. The Over Door Heater and Cooler from PremiAir features a ceramic PTC element, which is an extremely efficient heating method, ideal for areas where temperatures may fluctuate. The ceramic PTC element is self-regulating and varies its wattage to maintain a preset temperature. This means that it only draws the required current to maintain the temperature.

Features:

- PTC Heating for high thermal efficiency
- Wide oscillating angle for greater coverage
- Heat or Fan only settings for year round use
- Remote control and timer for total convenience

PRODUCT SPECIFICATION

Product Dimensions (mm)	210x620x130	Number in outer carton	4
Net weight (kg)	3.63	Oscillation function	yes
Colour	White	Output	2kW
Controls	Remote Control & LED Display	Overheat safety cut out	yes
Fan only settings	yes	Plug Amp (A)	13
Frequency (Hz)	50	Power heat (kW)	2
Heat settings	2	Power on indicator light	yes
Input power	2kW	Protection class I or II	II
Installation	Over Door	Remote control	yes
LCD display	yes	Timer (hours)	7.5
Main body material	ABS	Voltage (V)	230
Noise level (dB(A))	50	Wall mountable	yes

Product Code: EH1464
