

Koolbreeze Koolmist 300

Evaporative Misting Fan Cooler with High Performance & Style

The sleek design of this ultra efficient Air Cooler from Koolbreeze incorporates the latest thinking in evaporative cooling. Its high speed blower and small footprint make it the ideal, economical answer to the quick cooling of medium size offices, small shops or other work areas requiring style as well as performance.

Simply fill it with water, plug it in and turn it on; a mist of water cooled air will immediately flow over you.

Light and highly mobile, it can be moved easily to where it is needed. Simply aim is at anyone within 8 metres and they will feel an immediate benefit

Compare its features with rivals.

It has **twin** automatic louvres for the very best air distribution and a **low noise level** of less than 55dbl making it ideal for use in offices. You will find it has a **longer air throw** and **much higher air output**, as you would expect from the quality Koolbreeze brand name

Specifications

Cooling Area Up to 30M²/ 300Sq Ft

Air Distance 8M

Airflow Rate 1130M³

Powerful Fan

LED Display with Temperature Display

Water Reservoir 20L Usage 1.3 L / hour

Low Input Power only 120W

3 Speed and 3 airflow modes

Dimensions 37.8cm* 34.0cm* 84.0cm

Packaging Dimensions 40.5cm*
38.4cm*86,8cm

Weight 9.5Kg Gross 11.2KG

Noise 55-60dbl (low to high) Air pressure

Features

Powerful, even air throw and very low noise

Light and easy to move

High density cooling pad for efficiency

Water level indicator

Timer

Ioniser

LED display & Remote Control

Plugs into any standard 220V outlet and requires minimal electricity.

Up to 14 hours on one water fill

Detachable tank for easy cleaning
