### Koolmist 450 Evaporative Cooling Fan

The Koolmist 450 is a high performance evaporative cooler which is suitable for use in areas up to 42sq metres / 450sq ft and has an airflow rate of 2500m<sup>3</sup>/hr despite being a very compact unit which is less than a metre high. The Koolmist 450 from Koolbreeze is an economical answer to the quick cooling of large areas such as offices, shops and garages where traditional air conditioning may not be an option.

Simply fill it with water, plug it in and turn it on and a wave of cool air will immediately flow through the room.
