Compare

	Capacity(W)	EER
Narrow tube pitch + dual slinger up wheel	1-2mm	2.77
Common tube pitch + single slinger up wheel	2196	2.31

Lower Noise Design

- Requirements for maximum sound power level (EU) No 206/2012
Quiet and comfortable! Indoor sound power level in dB(A) / 63
- Optimized refrigerant system and air channel system are designed to ensure the maximum quietness and comfort.

On \ Off timer

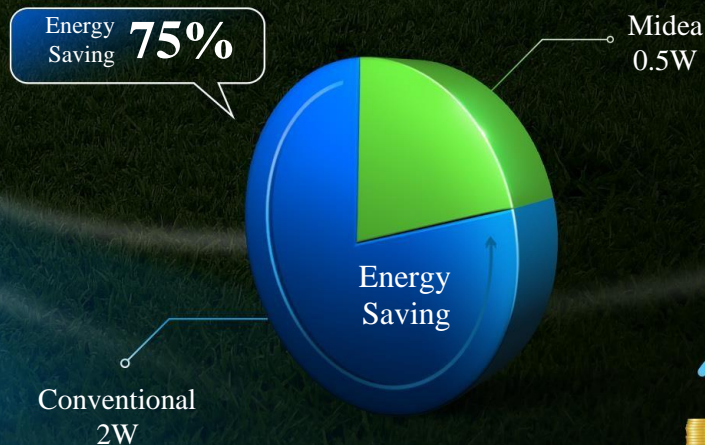

- With this timer, the air conditioner can be set to start and stop at any point of time.

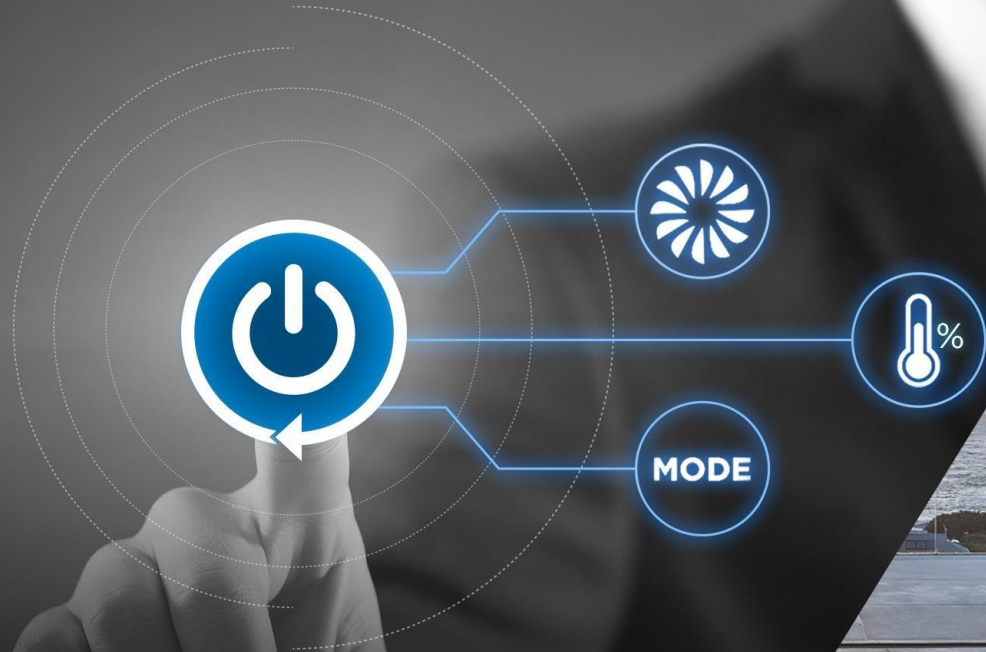

Eco-Design -- 0.5W standby(EU)

Save energy = Save your money!

· Intelligent on-off technology enables Midea products to automatically enter energy-saving mode when on standby mode, cutting energy consumption from conventional 2W to 0.5W which counts 75% of saving.

Auto-restart

If the unit breaks off unexpectedly due to the power cut, it will restart with the previous function setting automatically when the power resumes.

Two ways of installation

- In wall
This installation is only applicable for EU models
- Through the window
