24" (61 cm) Portable Drum Fan

This 24" (61 cm) Portable Drum Fan is ideal for large venue cooling and drying and is easy to manoeuvre with the large easy grip handles and wheels. The low and high settings and full tilt adjustment mean that a controlled flow of air can be directed wherever needed. For full peace of mind the unit also has an automatic overheat cut-out function.

Features:

- Ideal for large venue cooling and drying
- Easy manoeuvrability via large easy grip handles and wheels
- Portable design aids easy transportation
- Low and high speeds and full tilt function make controlling flow and direction simple
- The automatic overheat cut-off function provides total peace of mind
