Disposal of appliances and batteries

After the implementation of the European Directive 2002/96/EU in the national legal system, the following applies:

Electrical and electronic devices may not be disposed of with domestic waste. Consumers are obliged by law to return electrical and electronic devices at the end of their service lives to the public collecting points set up for this purpose or point of sale.

Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations. By recycling, reusing the materials or other forms of utilising old devices, you are making an important contribution to protecting our environment.

Cautions:

- Children of less than 3 years should be kept away unless continuously supervised.
This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
CAUTION -- Some parts of this product can become very hot and cause burns. Particular attention has to be given where children and vulnerable people are present.
- Children aged from 3 years and less than 8 years shall only switch on/off the appliance if it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children aged from 3 years and less than 8 years shall not plug in, regulate,

and clean the appliance or perform user maintenance.

- The heater must not be located immediately below a socket-outlet.

WARNING:

This heater is not equipped with a device to control the room temperature. Do not use this heater in small rooms when they are occupied by persons not capable of leaving the room on their own, unless constant supervision is provided.

Preparation

- Prepare a cross head screwdriver.
- Read this instruction manual carefully before installation and use. Keep this instruction manual and warranty card in a proper and safe place for future use in case needed.

Installation:

1. Put the main body up-side-down. Put the plug and power supply cord through the holes on the center of Base Cover (#2) and Base (#3). Then slide Base Cover (#2) , Base (#3) and Washer (#6) onto Main body respectively.
2. Fix Washer (#6), Base (#3), Base Cover (#2) with Screw M6*35 (#7). Clip the power supply cord with Cord Clip (#4) and fix it onto Base (#3) with Screw (#5).

Operations:

3. Plug in the unit to a socket, making sure the power supply is the same as rated.
4. Press the Main Switch on the top of the control box.
5. When the mark "-" in the digital display starts flashing, it's showing the that heater is on standby.
6. Press the MODE button on the control panel or remote control to switch the heater on or to a higher power.
7. The power setting level 1, level 2, level 3 will show on the digital display.
8. Press TIMER "+/-" button on control panel or remote control to choose the timer between 0-9 hours. "0" means the timer is off. The digits of the power settings and timer will be displayed as cycled: power settings for ten seconds, timer flashing for five seconds.
9. To shift the heater to standby mode, press OFF button on control panel or remote control. The mark "-" in the digital display will start flashing again (See Step 3).
10. To switch off the heater, press the Main Switch on left side of the heater accordingly.

Cleaning:

Unplug the unit before cleaning. It should be wiped with wet cloth. Do not use too much water.
